

Meeting Agenda

- Kickoff and Welcome
- Technical Presentation
- Chapter Business and Hot Topics
- Feedback and Closing

CHAPTER MEETINGS

3rd Thursday of each Month

Next Meeting:

*Thursday, October 20th, 2016
5:30 pm - 7:30 pm
ManTech International Corp
1141 Remount Road, Suite 800
North Charleston, SC 29406*

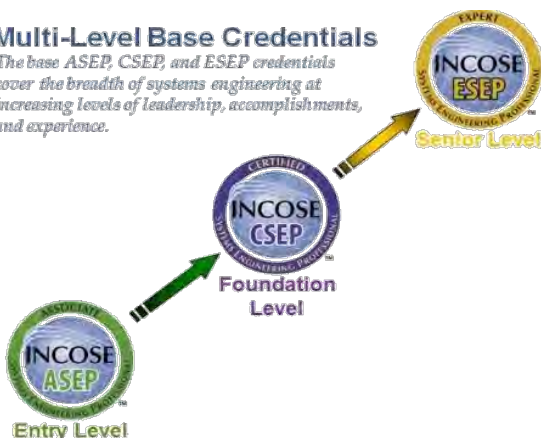

IoT is here, and you've got a lot of data (or you will soon)! You need a variety of analytics capabilities to act on data at the right place and time to gain insight and act in a timely manner. You need to process some data in real-time close to the source, build statistical models to predict failures for other types of data, and enrich it all with context from unstructured sources and cognitive analytics to improve insights. This session will introduce you to Watson IoT Platform Analytics and update you on the latest capabilities we are adding into the platform to enable the Cognitive IoT.

The Charleston Lowcountry Chapter of INCOSE is proud to feature chapter member **Ron Felice, Automotive Industry Architect for IBM's Watson Internet of Things organization** at our monthly technical presentation. Ron is a 15 year veteran of the automotive industry, working as a software engineer and systems engineer on a variety of vehicle subsystems. In his current role Ron helps companies develop a strategy for business and product transformation, to leverage the capabilities and realize the benefits of our connected world. Ron is certified in Automotive Functional Safety, to ISO 26262 and is a credentialed Connected Vehicle Professional by the CVTA. Ron holds a BS in Computer Science and an MS in Software Engineering.

Please join us for this exciting opportunity!

Multi-Level Base Credentials

The base ASEP, CSEP, and ESEP credentials cover the breadth of systems engineering at increasing levels of leadership, accomplishments, and experience.

Please RSVP to: INCOSE.chschapter@gmail.com

\$5 for Chapter Members and \$15 for Non-members

Light refreshments and beverages will be served
