

Press Release

The International Council on Systems Engineering has launched the Awards & Recognition Yearbook 2023

SAN DIEGO (November 2023) – International Council on Systems Engineering (INCOSE) is pleased to announce the publication of the 2023 Awards and Recognition sponsors Yearbook. This Yearbook showcases INCOSE’s volunteers who have gone above and beyond to further the awareness and implementation of Systems Engineering to ensure a better future for all.

Marilee Wheaton, INCOSE President and Fellow stated *“The Awards and Recognition Yearbook is a testament to the extraordinary efforts of our dedicated members, chapters, and working groups. They consistently go above and beyond to advance the field of Systems Engineering, champion the cause of INCOSE, and lend crucial support to fellow global colleagues in honing their skills as Systems Engineers. We hope you enjoy reading through the yearbook, and if you find yourself fueled with inspiration, consider taking an active role in shaping the future of INCOSE.”*

The yearbook is divided into the following sections:

INCOSE Fellows – Individuals with significant verifiable contributions to the art and practice of systems engineering in industry, government or academia are awarded as the INCOSE Fellow Award.

Chapter Awards - Through the annual chapter awards program, INCOSE recognizes the valuable contributions of individual INCOSE chapters as they strive to enrich, educate, and enlighten the INCOSE membership while improving recognition of INCOSE and the systems engineering profession. The Chapter Awards include the President’s Chapter Circle Award for “Outstanding Chapter” and the Director’s Chapter Circle Award for “Most Improved Performance”.

INCOSE Pioneer Award - The Pioneer Award is presented annually to one distinguished individual or team, who by their achievements in the engineering of systems, has contributed uniquely to major products or outcomes enhancing society or its needs.

INCOSE Founder’s Award -The Founder's Award is a highly prestigious award presented annually to one distinguished member of INCOSE who has made a major contribution to INCOSE. The award recognizes outstanding individual contributions to INCOSE, be they a single event or a lifetime of significant efforts.

Systems Engineering Influencer Award - This award recognizes efforts and achievements of a person(s) who has been instrumental in influencing the acceptance, adoption, and implementation of systems engineering.

Outstanding Service Awards – These awards are presented to recognize INCOSE members who have contributed significant volunteer effort on behalf of INCOSE.

Systems Engineering Journal Outstanding Paper Awards – These awards are presented to a paper that was judged to have made an Outstanding Contribution to Systems Engineering Theory, Practice, and/or Perspectives.

Press Release

Systems Engineering Journal Reviewer of the Year Award – This award is to an Individual who is judged to have made an Outstanding Contribution to Systems Engineering for an outstanding effort in terms of both quantity and quality for peer reviewing manuscripts for the journal Systems Engineering.

Best Paper Awards - INCOSE selects papers as “BEST” at their International Symposium (IS). Categories for best papers include the “Best Student Paper” and “Best Papers” related to selected Systems Engineering (SE) topics.

Working Group Awards – The Working Group Awards are presented to recognize INCOSE Working Groups who have contributed significant volunteer effort on behalf of INCOSE. They include “Achieving the Systems Engineering Vision 2023”, “Sustained Performance 2023”, “Collaboration Award 2023”, “Outreach Award 2023” and “Products of the Year 2023”.

International Science and Engineering Fair (ISEF) Award - INCOSE has participated in the International Science and Engineering Fair (ISEF) as a Special Award Organization since 2009, to provide awareness of systems engineering for very talented high school students all over the globe. Our awards are for the “INCOSE Best Use of Systems Engineering”.

We invite you to read and share the Yearbook which is available for download here: www.incose.org/yearbook

Notes to Editors:

About the International Council on Systems Engineering

The International Council on Systems Engineering (INCOSE) is a not-for-profit membership organization that promotes international collaboration in systems engineering practice, education, and research. INCOSE's mission is to "address complex societal and technical challenges by enabling, promoting and advancing systems engineering and systems approaches." Founded in 1990, INCOSE has more than 65 chapters and over 21,000+ members and associates worldwide. For additional information about INCOSE visit www.incose.org.
